

Pumps

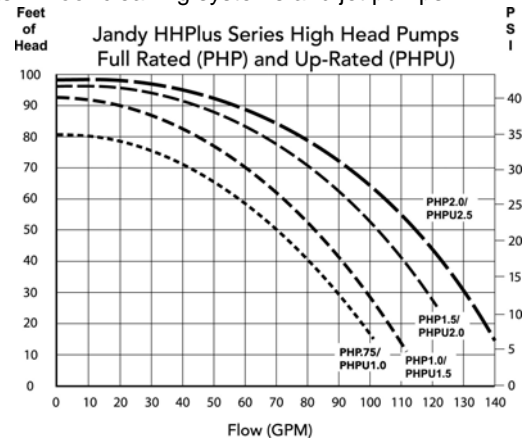

Jandy

Plus HP Pump

The new Jandy Plus Series of pumps adds many PLUS features to pool and spa pumps. The new Plus HHP features an enlarged strainer basket to optimize hydraulic flow and increase debris-holding capacity. Our clear lid with cross-rib handles makes opening and cleaning easy, without the need for tools. Quick connect unions and double drain plugs make service and winterizing a snap. Long-term reliability is ensured by top of the line 303-grade stainless steel hardware and corrosion proof base. Jandy PHP and PHPU pumps are ideal for filtration pumps as well as demanding hydraulic situations, such as in-floor cleaning systems and jet pumps.

- High head, high performance pump
- 2" quick connect full flow unions included
- New "Quiet Technology" for super quiet operation
- Enlarged strainer basket for increased debris-holding capacity
- Full rated and Up-rated motors
- Energy efficient motors
- Perfect for in-floor cleaning applications

Stealth Pump

The new Jandy JHP Series incorporates our new "Quiet Technology" in every model. Our team of engineers developed a method of controlling the critical flow dynamics within the pump. This proprietary design maximizes the hydraulic output of the pump while minimizing turbulence and associated noise. Leading edge impeller and diffuser designs deliver ultra-quick primes, superior performance, and whisper quiet operation.

- High head, high performance pump
- 2" quick connect full flow unions included
- Largest basket capacity available on the market today
- New "Quiet Technology" for super quiet operation
- Full rated, Up-rated, and 2-speed models
- Energy efficient motors
- Perfect for suction cleaner applications

Submersible Pumps 5-APCP

This versatile pump includes a stabilizing plate and automatic switch, both of which are removable, allowing the pump to be used in a variety of other applications.
110V

Automatic switch activates in approximately 2-1/4" of water; "off" level is approximately 1-1/2". Also has manual operating mode allowing it to pump down to 1/8". Includes garden hose adaptor. 25 ft. power cord on pump and switch.

Submersible Pumps 5-MSP

Description

Contain non-toxic mineral oil, providing continuous lubrication for maximum motor life. Aluminum housings best dissipate heat. Thermally protected.

Fluid Systems Design Parameters

1200 GPH @ 1 ft

Operates submersed

25' cord

Epoxy-coated aluminum housing.

1" FNPT outlet includes garden-hose adapter.

Bottom inlet has removable screen for easy cleaning; removes water down to 1/8".

Submersible Pumps 6-CIM

Description

The "Big John Pump " is a favorite for delivering trouble-free service while moving large volumes of water. Dependable automatic operation with thermal overload protection. The epoxy-coated, cast iron, oil-filled motor housing is ideal for use in applications requiring high volume water removal.

Fluid Systems Design Parameters
